With an exceptional location, in the Quadrat D'Or of Barcelona, on the fourth floor of an impressive royal estate typical of the Eixample Barcelonés, we find this apartment completely renovated with maximum qualities preserving original details of the time. For the restoration, have been preserved the differential elements that include these apartments in the category of the most desirable of the Eixample: 3.5 meters high ceilings with moldings and floors of noia pavement, of great heritage value. We access the house through a large hall, which leads to a large living room with open kitchen and impressive gallery facing a beautiful courtyard typical of the Eixample Barcelonés. The sleeping area consists of three double bedrooms, two of them en suite, one with dressing room and three

bathrooms. The distribution is completed by an independent water area and a small office. The spaciousness is the main feature of the houses. A feature that is enjoyed from the entrance hall that preserves the original style of the estate with relief paintings on the walls. The final result is a sum of tradition and modernity that surprises for its high quality.
