Price

**385,000 €**

**Five minutes from Plaza España, we find this charming penthouse, located in a completely renovated property of only three neighbors and two floors, with high quality finishes.**

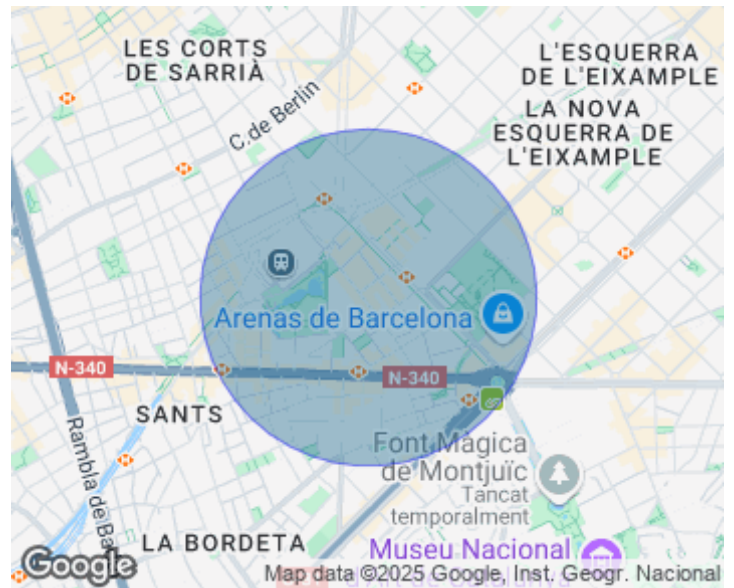

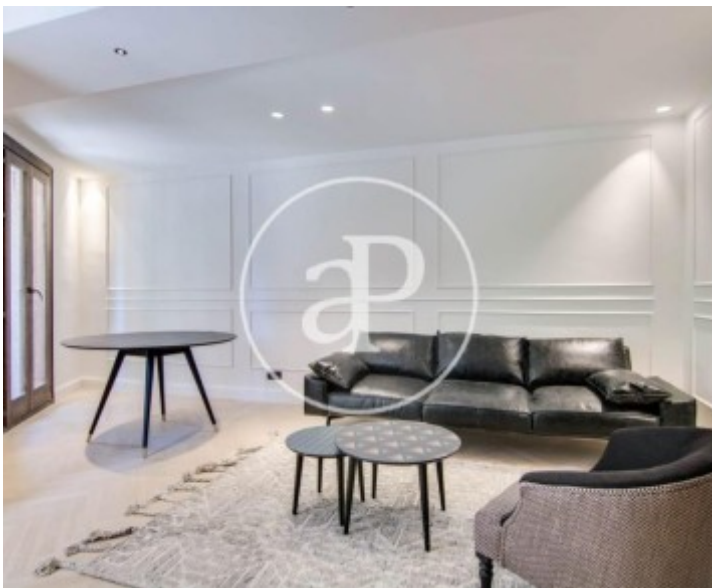

It stands out for its brightness, as it has three balconies, two exits in the living room that join in a single balcony and another in the room. The entrance door is made of original restored wood, a preciousness that confirms the expectation that we find only entering the house. To the right we find the day zone, with a complete bathroom and the kitchen office designed with great taste, including the equipment of the appliances and then the large living room, with two exits to the

balcony and all finishes very well harmonized in combination with the parquet floors of herringbone in all the rooms except in the bathrooms. In the night area we find the two bedrooms, one of them suite with exterior window and the other with exit to the balcony. The street is very quiet for this reason in the rooms you breathe calm. In the upper floor we can enjoy a private terrace of 30sqm with wooden platform floor. If you are looking for tranquility, brightness, quality and property with only two neighbors, no doubt you can not miss visiting this property.

**Contact us,**  
we will be happy to assist you,  
to offer you more details and information.
