The house of about 176m2 useful, located on the third floor of a building with a classic facade, has been completely renovated with high quality and has been decorated with great care.

With the work the distribution was modernized, bringing the kitchen closer to the living-dining room area so that it would be integrated into the day area. The living room has two rooms, one in front of the TV and the other closer to the entrance, both enjoy plenty of light thanks to the large windows overlooking the street. The kitchen invites not only to cook but to be, with a dining table that comfortably fits six people and an island with four high stools. The kitchen cabinets have large drawers for storage and convenience. The hallway leads to the guest toilet and the three bedrooms, all with en-suite bathrooms and large closets. The bedrooms are very quiet as they overlook large courtyards with lots of light. Also in the hallway there is a laundry area with washer and dryer and broom closet space. All rooms have ducted air conditioning and window blinds with remote control. The building has a doorman. Can you imagine living here?
