This spectacular chalet was built in the 1990s in a distinctive Arab style, characterised by a wealth of details such as arches and columns typical of this style, wrought iron railings, solid wood features, large crystal chandeliers, marble floors and mosaic walls. The 573 m² of built area are distributed over 5 levels as follows: On the basement level, the 50 m² provide space for a generous garage and storage room. On the ground floor there are two independent apartments, each comprising a living room with open-plan kitchen, one bedroom and one bathroom. There is the possibility of connecting both apartments through an interior patio. On the first floor we find an impressive entrance hall with magnificent columns, arches and a ceiling designed in true Arab style. This leads, on one side, to a living room and a spacious office with fireplace and access to two terraces, and on the other side, to a large kitchen with its own pantry, which connects to a bright dining room that also features a fireplace. On the second floor there are four bedrooms, each with an en-suite bathroom, built-in wardrobes and an individual design, with walls lined with silk or decorated with planets of the solar system. On the top level there is a barbecue and chill-out area with sea views and the possibility of building a swimming pool (according to plans). A laundry room is also located on this level....
