Aurea Villages is a modern architectural project distinguished by its almost square design, which harmonizes clean lines and open spaces with a contemporary and elegant style.

This three-story house combines functionality and aesthetics, offering a sophisticated and comfortable retreat. In the basement, there is a parking garage with two parking spaces, accessible via a ramp shared with the other two houses on the plot. In addition, this floor houses a laundry room, a technical room and two multipurpose spaces, ideal for a gym, sauna or any other need. The first floor is characterized by a large open space that visually connects the interior with the garden and pool.

Here the living room, dining room and open kitchen are located, creating a perfect environment for daily living and entertaining. There is also a full bathroom and a versatile room that can be used as a bedroom, office or other use as needed. On the second floor, we find four double bedrooms. Three of them share a full bathroom, while the master bedroom has an en suite bathroom and dressing room, offering a private and luxurious space. This distribution ensures comfort and privacy for all the inhabitants of the house.
